

# **Trash Hauler Documentation**

**Districts I-VI**

**Provided by:  
Neighborhood Assistants**

## Strategy . . .

Neighborhood Assistants collected documentation of the various trash hauler organizations that provide trash service for residents in the City of Wichita.

Each Neighborhood Assistant chose a four-block area within their district to observe and document activity for five days (Mon- Fri).

Photos were taken of trash receptacles, trash hauler trucks, bulky waste, and road conditions.

# District I

13<sup>th</sup>- 17<sup>th</sup> Pennsylvania: There are at least five carriers that pick up trash in this four block area once a day. Trash companies include Lies, Jerry McCray, Waste Connection, and Waste Management. There are some single hauler days throughout the week as well, mainly Waste Management.

# District I

18<sup>th</sup>- 21<sup>st</sup> Minnesota: There are at least three carriers that pickup in this four block area once a day. The trash companies include Lies, Jerry McCray, and Waste Management. There are also some single hauler days through out the week as well, mainly Lies.

# District I

13<sup>th</sup>- 19<sup>th</sup> Volutsia: There are at least five carriers that pickup in this six block area once a day. The trash companies include Lies, Jerry McCray, Waste Connection, Wichita Sanitation and Waste Management. There are some single hauler days throughout the week as well, mainly Waste Management.

# District I: Bulky Waste

15<sup>th</sup> & Volutsia

The stove has been in the yard for over a week.

Not certain if they have trash service, trash has been there for two days.

# District I- Road Conditions

These photos depict the disrepair of the streets in this area.

# District II

Hunters Pointe 143 E, Harry Street -- Three different Trash Services: Waste Connection, Lies Trash Service, and Waste Management

# District II

Bonnie Brae Subdivision (East Douglas/ Rock Road): Four different Trash Services: Wichita Sanitarian Service, Lies Trash Service, Waste Connection and Waste Management.

# District II

Oakwood Estates (Central/ Edgemoor): Four different Trash Services: Lies Trash Service, Waste Management, Chadwick, Waste Connection.

# District II

Eastridge (Lincoln/ Governour): Four different trash services: Lies Trash Service, Waste Connection, Waste Management and Chadwick.

# District III

1400-1200 Tulsa: Five different trash haulers doing business in this three block area: Lies, Air Capital, Los Ilanos, Waste Connections, and Waste Management.

# District III

2400 S. Washington: Three contiguous properties, three different trash haulers: Air Capitol, Waste Management and Lies.

# District III

3500 S. Gold: Four haulers in a two block area: Waste Connections, Lies, Waste Management and Haggard. OCI Inspector for this area estimates spending 20-30% of his time addressing trash issues.

# District III

2100 Pinecrest: Four trash haulers on one block : Lies, Waste Connections, Wichita Sanitation Services and Esqueda's.

# District III: Bulky Waste

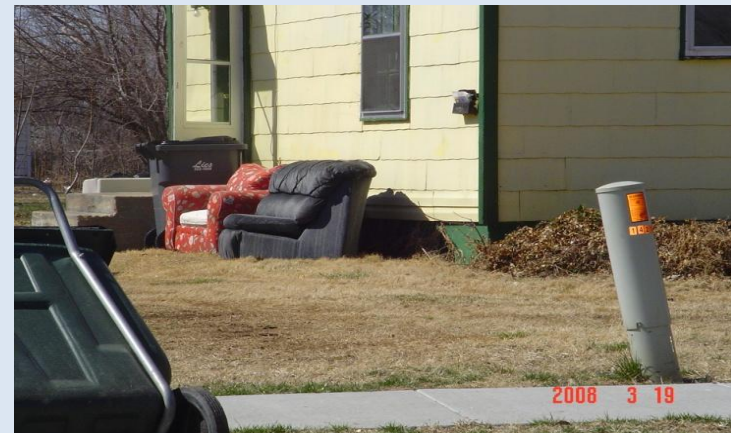

OCI Inspector in the East Mt. Vernon and Fabrique neighborhoods reports that he spends “40% and increasing rapidly” addressing trash issues.

# District III: Bulky Waste

The OCI inspector in the Hilltop area reports spending approximately 60% of his time on trash issues. He is responsible for two other neighborhoods in addition to Hilltop.

# District III: Bulky Waste

OCI inspector in the Planeview area reports spending approximately 85 percent of her time on trash issues. She is responsible for two other neighborhoods in addition to Planeview.

*Known illegal “dumper” seen in Districts I and III. This day was found at a gas station in District V.*

Illegal dumping is a problem predominantly in Districts I and III, which can and will happen anywhere if not heavily enforced.

# District III: Road Conditions

Street is in deteriorating condition -- five trash haulers providing services in a three block area on this street.

# District IV

**800-1100 block Sunrise --** Four haulers in a five-day period: Waste Management, Waste Connections, Haggard, and Lies.

# District IV

**4000-4300 Block W. 3rd Street:** Three trash haulers in a five-day period: AWS, Ballinger, Esqueda.

# District IV

**9200 block W Harry:** One trash provider observed the entire week -- Waste Management. A franchising agreement is most likely in effect.

# District IV

**1500-1700 Block South Martinson:** Five trash haulers observed in a five-day period: Waste Management, Waste Connections, Haggard, Lies and Esqueda. Three different haulers in one single day.

# District IV- Bulky Waste

Bulky waste at Martinson and Sunrise for over a week. From observation, due to lack of trash cans in relation to the number of houses on the blocks surveyed, it appears there are more residences without adequate trash service than originally expected, leading to bulky waste illegal dumping practices.

# District IV- Road Conditions

Gravel roads on Harry and 3<sup>rd</sup> Street are difficult to maintain with heavy trash truck traffic.

# District V

17<sup>th</sup> Ct North and Tunis Street: Four haulers in a five-day period: Waste Connections, Waste Management, Ballinger and Air Capital. At least one or more services picked up each day .

Waste Management

Ballinger

Waste Connections

Air Capital

# District V

1700-1900 Woodchuck -- Three haulers in a five-day period:  
Waste Connections, Waste Management and Ballinger At least  
one or more services picked up each day.

Waste Management

Waste Connections

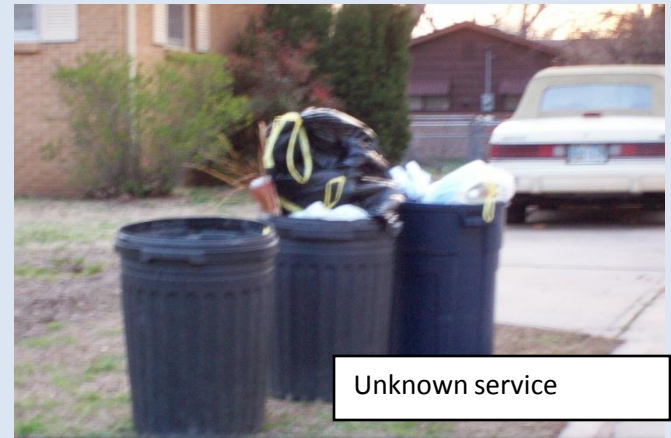

Ballinger

# District V

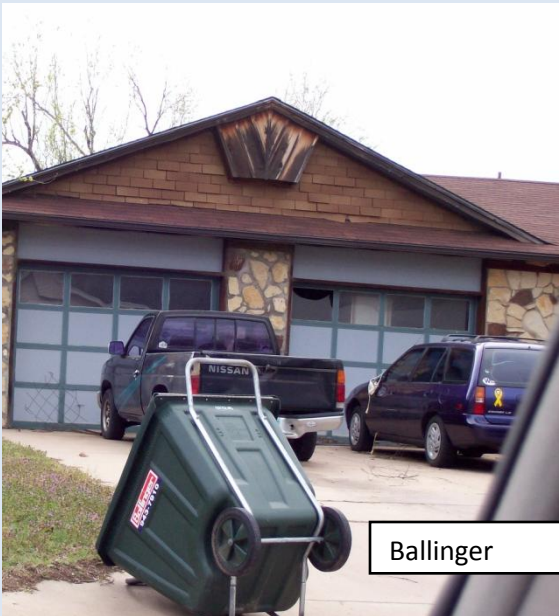

9300-9400 Westlink -- Four haulers in a five-day period: Waste Connections, Waste Management, Ballinger, and an unknown service. At least one or more services picked up each day .

Waste Connections

# District V

Boyd Street between Central and Murdock -- Four haulers in a five-day period: Waste Connections, Waste Management, Ballinger and an unknown service. At least one or more services picked up each day.

Ballinger

Waste Management

Studzman

Waste Connections

# District V

On the streets of District V, four different trash hauler trucks were viewed.

# District V- Road Conditions

Street in need of repair.  
Almost unusable without  
concern for tire and car  
damage. Four different  
haulers on this block  
area.

# District VI

**El Pueblo-** 21<sup>st</sup>-23<sup>rd</sup> and Jackson streets: Five haulers documented picking up trash all five days (M-F): Waste Connections, Lies, Chadwicks, Morans, and Esquedas.

# District VI

**Orchard Park** - Central to Murdock and Bebe; Two trash hauler services documented on five days: Lies and Ballinger. Some days had no haulers in neighborhood.

# District VI

**Sherwood Glen – 37<sup>th</sup> - 39<sup>th</sup> and Athenian:** Two trash hauler services documented: Lies and Ballinger. Two days - no haulers in area.

# District VI

**Indian Hills/Riverbend** - 13th -15<sup>th</sup> and Mt.Carmel. Only one trash hauler service documented on one day: Waste Connections. Other days no service viewed.

# Summary:

In the six districts documented, 16 different trash haulers were viewed providing trash service. Twenty- four block areas were studied over a five-day period. Some days a truck would travel down a neighborhood street to pick up only one resident's trash that day.

We noticed where there were multiple trash haulers on multiple days, there seemed to be more damage to streets.

Bulky waste is an extreme issue in District I and III and cannot be controlled by the current efforts of neighborhood clean-ups and individual residents trying to help. If not addressed, the bulky waste problem may effect more districts in the future.
